Projects

Project - 1 - IT Industry (21 months)

Roles and Responsibilities:

- As a D365 Associate Business Analyst at Intech Systems Pvt Ltd, my role involves collaborating with stakeholders to elicit and document business requirements, ensuring alignment with Dynamics 365 capabilities.
- I actively participate in the configuration and customization of D365 modules, tailoring them to streamline business processes.
- Data management is a core responsibility, involving data migration, quality assurance, and compliance.
- I provide crucial user training and support, facilitating D365 adoption and optimizing user experiences.
- Additionally, I contribute to project planning, testing, and documentation efforts, maintaining clear communication with cross-functional teams.
- My role demands adaptability, problem-solving, and staying current with D365 advancements to drive

successful project outcomes.

Project - 2 - IT Industry (3 months)

Roles and Responsibilities:

- As an intern my primary responsibilities were: Do a market research in the field of companies dealing with marine fuels and the different companies supplying marine fuels and studying all the Marketing Strategies for the company.
- To find the potential leads for business from different countries and updating the information gathered in CRM software of the company. To make a report about insights of various research done.

Project - 3 - IT Industry

Roles and Responsibilities:

- As a D365 functional consultant with 1 year of work experience, I contributed to the successful implementation of a D365 Project Operations Non-stocked deployment integrated with Finance and Operations for a large Audit and assurance firm.
- My responsibilities included gathering and analyzing business requirements, configuring the system, performing testing, and providing end-user training and support.
- I worked closely with cross-functional teams to ensure project milestones were met and delivered high-quality solutions that aligned with the client's business objectives. I also assisted in post-go-live support and issue resolution.
- Through this project, I gained valuable experience in project management, stakeholder communication, and problem-solving skills.
- I got hands-on experience in the Project Operations, Procurement and Sourcing, and Product Information Management modules of F&O in this project.
