TEK09047 (Oracle - 14 + Year)

📘 MCA - Computer Science

Highlights

- Having hands on **14 years** of diversified experience in **Oracle Applications R12&11i** and worked extensively in **Development, Enhancement** and **Support projects** of **Oracle Apps and Fusion.**
- Exposed towards Oracle apps modules via **HCM (Core, Payroll, Absence, Benefits) AP, AR, GL.**
- Having **7 years' experience** in **end-to-end implementation** and **Support** in Oracle Fusion **HCM and Finance Modules**
- Having 6 **years hands on experience in Oracle Fusion Technical** areas like **BI Reports, OTBI Reports, Loaders,** and **Extractions ,Fast formula in HCM.**
- **Hands on experience in OIC(ICS).**
- Good Knowledge on **PLSQL and SQL Components.**
- Proficient in Oracle Technologies like **BI/XML Publisher SQL, PL/SQL, Oracle Reports**, **Forms Development, Forms Personalization**.
- Hands on Experience in **development** and **customization of Oracle Discoverer Reports.**
- Involved in the Implementation **R12/11i** and **Support Projects** with various versions of application.
- Experience in gathering requirements, analysis, solution design, development, implementation, customization, maintenance, support, and data migration.
- Provided **instant solutions to issues** which were reported in the production instance.
- Having hands on experience on **Interfaces** and **Conversions** for various RICE Modules.
- Proficient in writing **stored procedures, Packages, cursors, exceptions** and **functions, collections** using SQL & PL/SQL.
- Work Experience in **Application Object Library (AOL) Activities.**
- Preparing **AIM Documents** like MD70, MD120, CV60, BR100 and TE20, Explain Plan.

Skills

Primary Skills

- Absence Management
- Core HR (Core Human Resources)
- HCM (Human Capital Management)

Secondary Skills

- OIC

Other Skills

- **Databases:** Oracle 11i, 10g
- **Technologies:** Fusion, Oracle Applications 11i & R12
- **Primary skill sets:** Fusion, Oracle Applications Framework (OAF), Workflow, XML Publisher, API, SQL, PLSQL, Outbound Interfaces, Report Building.
- **Tools:** Jdeveloper, SQL Developer, Toad, FND Loads, Winscp, Putty, Oracle Report Builder.
- **Modules: HCM (Core, Payroll, compensation, Absence, OTL, Learning,ORC,Benefits),** Finance (AP,AR, GL), SCM (INV, PO, OM).

Projects

Project 1 - IT Industry (17 months)

- Working as a Technical Consultant HCM (core, Payroll, compensation) and Finance.
- Worked for BI Reports for Core HR and Compensation Modules.
- Worked for Compensation Management (Benefits, Incentive and Compensation)
- Working on creating an HCM Extract based on client requirement.
- Working on creating BI Reports and Bursting Report as per client requirement.
- Responsible for resolving the technical issues on OIC, BI Reports.
- Working on Data Importing tool for Oracle HCM using HDL.
- Worked for Fast Formula in Payroll and Absence Modules.
- Working on cutting edge cloud HCM SAAS technology products like BIP, HDL.
- Worked OIC Integrations in HCM and Finance.

Project 2 - IT Industry (22 months)

- Worked Support and enhancements of BI Reports in Fusion **HCM and Finance.**
- **Worked for Integrations in HCM and Finance as per the business requirement.**
- Created **dashboard** using **OTBI tool.**
- Worked on **BI Reports with sub template.**
- Developed **OTBI Reports** in various modules.
- Loaded data into cloud application through **HDL**.
- Created Processes for developed **BI Publisher Reports** through ESS Jobs.
- Worked on **PLSQL Procedures and Packages** in PAAS (ATP DB).
- Worked on **Bursting for few BI reports**.
- Designed documents as per requirement.
- Attended meeting on daily and weekly basis.

Project 3 - IT Industry (24 months)

- Member of the core team and responsible for **HCM and Finance.**
- Developed **OTBI Reports** in various modules of **HCM** and **Finance**.
- Created **Dash Boards** and **Graph** using **OTBI.**
- Developed **BI Report with bursting of email and ftp**.
- Developed reports with **sub template using BI Tool**.
- Developed alerts and scheduled as per the business requirement.
- Created Processes for developed **BI Publisher Reports** through ESS Jobs.
- Worked on **Bursting for few BI reports**.

Project 4 - IT Industry (21 months)

- Highly skilled at problem-solving & highly developed analytical skills

- Worked for full life cycle implementation experience as a technical consultant in **Oracle fusion cloud environment**
- Develop or extend reports with Report composer in **OTBI environment**
- Experience in full life-cycle project including Requirements, Design, Development, Testing, Roll-out and post production support
- Understanding of all **Oracle fusion Cloud Finance Modules**.
- Preparing OUM **Documentation i.e. DS030, AN100, TE050, AND TE020**
- Experience in creation of **BI Publisher Reports**.

Project 5 - IT Industry (11 months)

- **Design, Development** and **Customization of RICE components**
- Written **PL/SQL Stored Procedures, Functions and Packages** to implement business rules into the application.
- **field** generation using different bean classes.
- Deployed java and xml files and imported all the OAF pages using **OAF page loader** and **XML Importer.**
- **Personalized OAF Pages** per client requirement.
- **Doing feasibility analysis** and **preparing technical design documents MD-070**.
- Coding **and Development of RICEW** as per Naming and Coding Conventions.

Project 6 - IT Industry (20 months)

- All projects are implementation in R12 (12.1.3) in Finance and SCM modules.designed Interfaces and Conversions ,XML Publisher Reports with Bursting and Oracle Application Framework and Oracle Workflows.
- Designed RICE Components in various modules.
- Written **PL/SQL Stored Procedures, Functions and Packages** to implement business rules into the application.
- Involved in data loading Using **SQL*Loader** to load data into the database.
- Involved in Data Extraction using **UTL_FILE Packages**.
- Responsible for Preparation of the **Technical Documents** based on the Functional Documents.
- Attended **status meetings** on a daily and weekly basis.
- Used **PLSQL Collections** for various RICE development and customization.

Project 7 - IT Industry (19 months)

- Designed RICE Components in various modules.
- Designed LOOKUPS while designing custom pages.
- XML reports using Bursting technology.
- Responsible for understanding requirement and **preparing technical solution** for customer requirement.
- Responsible for Developing and testing RICE Components for various modules.
- Preparing **unit test results** for the developed component.
- Written **PL/SQL Stored Procedures, Functions and Packages** to implement business rules into the application.
- Involved in data loading Using **SQL*Loader** to load data into the database.
- Involved in Data Extraction using **UTL_FILE Packages**.
- Responsible for Preparation of the **Technical Documents** based on the Functional Documents.

Project 8 - IT Industry (11 months)

RICE Components:

- Participated for **CRP1àCRP2àSITàUATàGO LIVE**
- **Design, Development** and **Customization of RICE components**
- Designed **Unix Shell Scripts** for RICEW Migration.
- Define **Concurrent program**, **Request Sets** and **Executabl**e
- Performing **Unit testing** and **Code review** for developed RICE Components
- Preparation of **MD120** doc for Code migration
- Preparation of **TE020** doc for **Unit Test cases**
- **Supporting** the deliverables during each phase of project.
- Worked for **FND Load Scripts**.
- Attended **Daily status Meetings** and **handsoff session**

Project 9 - IT Industry (11 months)

- Responsible for developing **RICEW** Components in various modules.
- Developed **Interfaces** and **Conversions** with **API's** and **Standard Programs**.
- Worked for **Oracle Workflow development** and **customization** in various modules.
- Prepared installation and design documents for **the XML Publisher Reports**.
- Developed, Registered **XML Reports** with process adhering to Oracle AOL standards.
- Writing **SQL Queries** and **generating reports with PLSQL**.
- Designed **AIM Methoology documents** for RICE components.

Project 10 - IT Industry (11 months)

- Responsible for **understanding customer requirements**.
- Developed Interfaces and Conversions **in AP,AR and GL modules**.
- Designed **XML publisher Report using PLSQL packages** and registered in AOL.
- Responsible for **AOL Activities** like creation of Concurrent programs, Value sets and Request sets.
- Participated in **weekly** and **daily status meetings.**
- Involved in **SIT** and **UAT** phase of project.
- Written **PL/SQL Collections, Stored Procedures, Functions** and **Packages** to implement business rules into the application.

Project 11 - IT Industry (26 months)

- Developed **Oracle XML Publisher Reports**.
- Developed and customized Oracle Discoverer Reports.
- **Worked for Customization of Oracle XML Publisher Reports.**
- **Worked for Forms Personalization and Forms Creation.**
- Familiar with Support Tickets on RICE Component part.
- Prepared the **MD70's** from MD050 for different objects according to **Change Request**.
- Developed Oracle objects like **Packages, Procedures, Tables,Synonyms,Sequence** and **Views** for interfaces and Conversions.
- Written **PL/SQL Programs** for implementing validation rules and loading data from staging Tables to Interface Tables.
- Designed **Installation Documents**.
- Executing **concurrent programs** from PL/SQL.
- Creation of **Value sets** in various Modules of the application.
- Developed **SQL Objects like Tables, Views, Synonyms, Sequences**.
- Designed AIM Documents. (**MD70, MD120, CV60 and TE20**).
