

**TEK011631 (Enovia - 6 + Year)**

■ Bachelor of Engineering

Highlights

- Have Good Experience with technical skills in Enovia Configuration, technical consultation & support on different version.
- Organized and dependable candidate successful at managing multiple priorities with a positive attitude.
- Willingness to take on added responsibilities to meet team goals

Skills

Primary Skills

- 3DExperience
- Business
- ENOVIA Centrals (Engineering, Program)

Secondary Skills

- CSS
- HTML
- JAVA

Other Skills

- SQL
- EnoviaV6

Projects

Project - 1 (8 months)

Role : Software Developer**Responsibilities :**

- Customization and configuration expert on 3DExperience 2023x environments
- Experience in handling the multi cad integrations with PLM 3DExperience

Project - 2 (26 months)

Role : Project Engineer**Responsibilities :**

- Working on ENOVIA 2015x, 2020x, 2022x,2023x & 2023x (On Cloud) environments customization & configuration.
- Working as a Junior Developer. Having experienced in upgradation as well as implementation projects.
- Having experience in Platform Installation.
- Integration of Multi CAD (CATIA V5, AutoCAD, CREO Parametric, Altium, SolidWorks.).
- Experience in understanding As Is process, To Be process design, URS, FRS, Creating Use Cases, Test

- Cases, Creating User manual for process.
- End user training.
- Worked in Engineering central, Program Central, Library central etc.
- Attribute Management using Data model customization.
- Technical Support & Error trouble shooting.
- Responsible for Customer handling and consulting for ENOVIA R2022x (On Premises) & R2023x (On Cloud) environment

Project - 3 (7 months)

Role : PLM Consulatnt

Responsibilities :

- Worked as Design engineer Intern Primarily for Data Migration activity
- Worked on File based CATIAV5 Migration activity (Enovia 2020x Version).
- Worked on Program and Engineering central for different Customers.
- Learned and adapted quickly to new technology and software applications

Project - 4 (12 months)

Role : Design Engineer

Responsibilities :

- Design & do modification as per customer requirement.
- Software used for design SolidWorks & CATIA V5 and contributed to QA & Production Teams to find root cause analysis to determine core reason for failures and errors
- Maintained compliance with industry standards and regulatory compliance during managed projects.
- Researched and evaluated new techniques and technologies to improve product quality.
- Partnered with senior management to analyze issues and find appropriate solutions.

Project - 5 (15 months)

Role : Design Engineer

Responsibilities :

- Developed strong organizational and communication skills through coursework and volunteer activities.
- Paid attention to detail while completing assignments.
- Organized and detail-oriented with a strong work ethic.
- Resolved problems, improved operations, and provided exceptional service.
- Gained strong leadership skills by managing projects from start to finish

Awards

- ENOVIA - Virtual Product Development.

Certifications :

- 3DEXPERIENCE-Solution Architecture Exam Level-1.
- 3DEXPERIENCE-Installation Fundamentals.
- 3DEXPERIENCE-Collaborative Business Innovator.
- 3DEXPERIENCE-Collaborative Industry Innovator.
- 3DEXPERIENCE-Collaborative-Designer-for-CATIA-V5.
