

## TEK012116 (RPA Development - 5 + Year)

■ Bachelor of Engineering - Computer Science

### Highlights

---

- Have Good Experience as an RPA Developer
- I have been in a value adding process of automation focused collaborations with global clients and business users and developed Robots , Metabots and IQbots and reusable components for their different needs using Automation Anywhere and UiPath and test and support these projects
- During this experience I have also got great opportunities to mentor colleagues , getting involved with various clients at different locations to discuss and provide customized solutions to them.
- Worked as a Solution Architect for my latest project and was involved in development of bots, Python scripts as well as the whole architecture of the solution.
- Guiding fellow developers with an end to end efficient solution, while keeping the customers satisfied with the timely delivery of projects.

### Skills

#### Primary Skills

- Automation Anywhere - IQ BOT
- Meta Bot
- UiPath

#### Secondary Skills

- JavaScript
- Python
- SQL

#### Other Skills

- **RPA Tools** : Automation Anywhere(A360), UiPath
- **RPA Technologies** : Including Automation Anywhere, UI Path, Automation services like OCR, Web Recorder, Email Automation, Error Handling, Image Recognition, Different Web Services, Screen Capture, Object Cloning, Meta Bot, IQ Bot .
- **IDE** : Automation Anywhere Tool and UiPath
- **Programming Languages** : C#, Python, Java
- **Scripting Languages** : HTML, XML, JavaScript
- **Database** : MySQL
- **Web Services** : SOAP and REST.

## Projects

### Project - 1 - IT Industry (9 months)

#### Role and Responsibilities :

- Involved as a Solution Architect and developer for building an end to end solution for validation of files based on certain complex criterion.
- RPA Tool and Applications Involved: Automation Anywhere A360 - Outlook, FAI Applications(FAST), Eclipse Webservices, Microsoft Azure, AI Model for signature detection, Python.

### Project - 2 - IT Industry (8 months)

#### Role and Responsibilities :

- Involved as an RPA developer building bots for Extraction of data by IQBot and setting up of disbursement ledger.
- RPA Tool and Applications Involved: Automation Anywhere A360, Outlook, FAI Applications, IQ Bot.

### Project - 3 - IT Industry (8 months)

#### Role and Responsibilities :

- Involved as an RPA developer for UOP Engineering applications for the workflow automation.
- RPA Tool and Applications Involved: Automation Anywhere 11.3 - Excel, Outlook, UOP Applications

### Project - 4 - IT Industry (9 months)

#### Role and Responsibilities :

- Automating the download of excel files sent by the CSR, manipulating the files based on Customer Part Number and uploading it to a Web Portal.
- RPA Tool and Applications Involved: Automation Anywhere 10.7 - Internet Explorer, Excel, Outlook

### Project - 5 - IT Industry (7 months)

#### Role and Responsibilities :

- Automating the download of excel files from user's Outlook and read the excel data, update the excel sheet based on Esker website for Failed Faxes as successful/failed.
- RPA Tool and Applications Involved: UiPath - Excel, Outlook, Internet Explorer

### Project - 6 - IT Industry (8 months)

#### Role and Responsibilities :

- Automating SAP report to notify about shipments done on that day, send mail to customers indicating shipments and enter respective invoice numbers in change billing document.
- RPA Tool and Applications Involved: Automation Anywhere 10.7 - SAP, Excel, Outlook

## **Project - 7 - IT Industry (9 months)**

### **Role and Responsibilities :**

- Fetching information about the active schedules present in Sterling Integrator at any instant.
- RPA Tool and Applications Involved: Automation Anywhere 11.3 - Sterling Integrator, Excel

## **Project - 8 - IT Industry (8 months)**

### **Role and Responsibilities :**

- IQ Bot Process for fetching invoice data.
- RPA Tool and Applications Involved: Automation Anywhere 11.3, IQ Bot 6.5 - Chrome, Excel, Outlook

## **Awards**

---

### **Certification :**

- Automation Anywhere Certified Advanced RPA Professional.
