

**TEK06191 (PTC - Windchill - 8 + Year)**

■ MCA - Computer Science

## Highlights

---

1. Windchill Customization: Server Side and Client-Side Customization. Expertise in Java, JSPs, Xml, AJAX, Validators, Listeners, Form Processors, Actions, Reporting etc.
2. Custom UI creation and custom search functionality for complex data search from database.
3. Other Customizations – validators, form processors, Listener creation, creation of reports to query data from system using JSPs
4. A key member of the project group and working with the team for executing projects by using technologies such as **Core JAVA, JEE (Servlets, JSP), Struts 2.0, XML, JDBC, Oracle PL/SQL.**
5. Experience in implementations, configuration and customization of Teamcenter and Windchill
6. Experience in windchill and Teamcenter product development/ customization.
7. Completed JAVA & JEE, ORACLE 10g course from JSpiders development and training institute.
8. Proficient in using Eclipse.
9. Workshop on “Web Programming and Web Services” organized by IACE Bangalore.
10. Quick Learner, Excellent Analytical and Trouble Shooting skills.
11. Good Team Player with Strong Communication and Interpersonal Skills.

## Skills

### Primary Skills

- Windchill Customization

### Secondary Skills

- BOM Management
- CAD Management
- Change Management

### Other Skills

1. **PLM Tools** : Windchill 11.x, Windchill 10.x, Teamcenter
2. **Programming Languages** : JAVA, J2EE, XML, PL/SQL, C, C++.
3. **Database Management** : Oracle
4. **Web Technologies** : Web Services (SOAP), HTML, XML, Javascript, JDBC.
5. **Design Tools** : Eclipse, Netbeans.
6. **Operating System** : Microsoft Windows, Linux.
7. **SDK & IDE's** : JDK-1.8

## Projects

### **PTC Windchill 11.1 - Software Industry (39 months)**

#### **Client- Hitachi Energy**

- Business Administration: Type and Attribute Management, OIRs, ACLs, Lifecycle Template Administration, Participant Administration, Change Management, preferences Management
- Server Side and Client-Side Customization using Java, JSPs, Xml, AJAX, Validators, Listeners, Form Processors, Actions, Reporting etc.
- Custom UI creation and custom search functionality for complex data search from database. Other Customizations – validators, form processors, Listener creation, creation of reports to query data from system using JSPs. kjhjhbjbuigiuhjb

### **PTC Windchill 11.1 - Software Industry (28 months)**

#### **Client- Cummins Inc**

- Business Administration: Type and Attribute Management, OIRs, ACLs, Lifecycle Template Administration, Participant Administration, Change Management, preferences Management
- Server Side and Client-Side Customization using Java, JSPs, Xml, AJAX, Validators, Listeners, Form Processors, Actions, Reporting etc.
- Custom UI creation and custom search functionality for complex data search from database. Other Customizations – validators, form processors, Listener creation, creation of reports to query data from system using JSPs

### **PTC Windchill 10.2 - Software Industry (29 months)**

#### **Client- Owens- Illinois Inc.**

- Understanding the Requirements and Functional specifications.
- Customizing Windchill according to client needs.
- Designing JSP view for the same, writing logic Using java.
- Designing jobs, adding various validation and running the same.

## Teamcenter Enterprise 9.0 - Software Industry (2 months)

### Client- Delphi Automotive

- Understanding and implementations, configuration and customization of Teamcenter.
- Experience in Teamcenter product development/ customization.
- Customizing .cfg, .mth , .met, .cnvdef files using java and model language.
- Understanding the Requirements and Functional specifications.
- Customizing Teamcenter Enterprise according to client needs.
- Designing XML, JSP view for the same, writing logic Using java.
