

**TEK0649 (PTC - Windchill - 7 yrs)**

■ Bachelor of Engineering

Highlights

- Overall 7+ years of experience as PTC Windchill Quality Assurance, Configuration and customization
- Experience working with CATIA
- Hands on experience in Automation Testing tools like HP-UFT, Selenium using webdrivers & locating techniques
- Hands on experience with HP ALM and JIRA
- Through knowledge of Windchill Change Management, Lifecycles and Workflows.
- Working with user groups to provide trainings, recommend changes

Skills

Primary Skills

- Windchill Testing

Secondary Skills

- Configuration Management
- Windchill Customization

Other Skills

- Programming Languages : Core Java, Vbscripting
- Operating Systems : Windows, Linux
- Application : Windchill, CATIA, HP UFT, Selenium, HP ALM, Teamcenter, Excel

Projects

PTC Windchill PDMLink customization - IT Industry (31 months)

- Skilled in PTC Windchill PDMLink customization and configuration
- Knowledge and good experience in Java, J2EE, JSP, XML.
- Experience of Jira, svn, Confluence and working in agile setup
- Automating windchill Test scenarios using HP UFT/Selenium.
- Perform Unit Testing, Defect fixing and Provide solution for any technical issues in support
- Experience and proven capabilities in writing and executing application level test plans in a Windchill environment.
- Design and Execution of Performance Test Cases on daily/weekly basis
- Windchill Business Administration
- Experience in Type and Attribute Management, Workflows, Lifecycle Management, Policy Administration, OIR, Preference Management, Participant Administration
- Good knowledge of CAD(CATIA), BOM management and Change Management.

Associate Consultant - Manufacturing Industry (59 months)

- Deriving Test Scenarios, Documenting Test Cases and Collecting Test Data for Functional Testing.
- Tracking Defects, Selecting and designing Test Cases for Regression Testing.
- Understanding and Analyzing Test Requirements
- Contribution to Test Plan Documentation

Teamcenter Support and Migration activity for Yangfeng Automotive Interiors, India

- Experience in CAD software integrations with PLM and CAD.
- Sound knowledge of Engineering work processes and the ability to understand PLM models, and assembly modeling best practices
- Experience in troubleshooting CAD+PLM intergration issues.
- Provide end user support to resolve CAD/PLM related issue

Teamcenter PLM data migration for Jhonson Controls, India

- Migrating legacy data from EPIC/VPM to Teamcenter.
- Validation of Data as per the global standards.
- Migrating assemblies to Teamcenter and managing structure manager.
- Verifying and managing assembly positions in CATIA.

Awards

- ISTQB Certification for Foundation Level
- ITIL4 Certification
- CATIA V5 Dassault Systemes rated "CATIA Certified Professional" in Part, Surface and Assembly Design
- HP UFT : Advance vbscripting, Keyword driven/data driven scripting, BPT Framework
- Trained on Windchill Configuration, Windchill Client/ Server customization
- Goethe Certificate A1 for German Language.
- Post Graduate Diploma in Tool Design & CAD/CAM from IGTR, Aurangabad
