

**TEK06843 (PTC - Windchill - 9 + Year)**

MCA - Computer Science

Highlights

Experienced Software Developer with over 9 years of experience in Software industry. Excellent reputation for resolving problems and improving customer satisfaction.

Skills

Other Skills

- JAVA, Kotlin, Clean Architecture, MVP, MVVM, Google's Architecture components, ReactiveX (RxJava, RxKotlin)
- Mobile Databases:- Google Room, Realm, Sqlite
- Server Db: MongoDB
- Js: AngularJs, NodeJs

Projects

Project 1 - IT Industry (6 months)

- Implemented and optimised PLM system using PTC Windchill, resulting in improved product development efficiency and reduced time-to-market.
- Configured and customised Windchill to meet specific business requirements, including workflow automation, change management, and CAD integration.
- Led cross-functional teams to ensure successful PLM implementation, collaborating with stakeholders from engineering, manufacturing, quality, and other departments.

Project 2 - IT Industry (72 months)

- Collaborated with project managers, developers, quality assurance and customers to resolve technical issues.
- Trained and mentored junior developers and engineers, teaching skills in Android, Dotnet core, JAVA and working to improve overall team performance.
- Wrote clean, clear and well-tested code for various projects.
- Created proofs of concept for innovative new solutions.
- Designed user interfaces that engaged multiple senses and produced immersive experiences.
- Maintained comprehensive knowledge of mobile development cycle and addressed challenges arising in each phase.

Project 3 - IT Industry (24 months)

- Created custom mobile applications using native technologies.
- Provided dedicated support and timely issue resolution to clients following successful app launch
- Coordinated with project management staff on database development timelines and project scope.
