

**TEK0582 (PTC - Windchill - 13 + Year)**

■ Windchill Fundamentals Certification

Highlights

- Total 13+ years of overall experience.
- In PTC Windchill / Infor PLM / Project Management / PTC CREO.
- Product Data Life Cycle Management, PLM Administration, PLM Support, CAD PLM Data Migration, Training, Testing.
- In various cad software like PTC Creo, Autodesk Inventor & AutoCAD etc.
- Expert in Design Domain & have good knowledge on MDM processes, product Life cycle management.
- Responsible for requirement gathering, scoping, convert requirement into system / application design.
- Mapping requirements in windchill PLM / Infor to conceptualize solution in design.

Skills

Primary Skills

- CAD Management
- Windchill Customization

Secondary Skills

- Configuration Management

Other Skills

- PTC Windchill
- PTC CREO
- AUTODESK INVENTOR
- AUTOCAD 2013
- BAAN (ERP)
- /INFOR PLM
- INFOR LN
- MICROSOFT OUTLOOK
- POWER BI
- TEAMS
- TRELLO

Projects

Windchill Version Upgrade (Version 10.2 to 12.0.2.5) - Manufacturing Industry (1 months)

- Rehosting of Production environment to UAT & Test instances
- Run WINDU & WINRU Task, Upgrade Manager Utility, Troubleshoot Error & Fix.
- Installation & Configurations of Windchill, Data Migration.
- Post upgrade, testing of existing customizations and configurations in new version.
- Support for New windchill Enhancements & Customization Deployments.

Windchill Version Upgrade (Version 10.2 to 11.1) & DB Migration (Oracle to MS SQL) (2 months)

- Rehosting of Production environment to UAT & Test instances

- Post upgrade, testing of existing customizations and configurations in new version.

Windchill Enhancements (New Customizations) - Manufacturing Industry (4 months)

- Stage 1 - Customizations related to BOM Import functionality, Equivalent link between Manufacturing view and Design view of Windchill part, Type and Attributes management.
- Stage 2 - Development of new custom BOM reports.
- Stage 3 - Integration between Windchill and ERP system. Testing and Documentation for customization in UAT.

Godrej Security Solutions, Mumbai - Manufacturing Industry (70 months)

- New Product Development, BOM, inquiries & Orders
- Support to process engineering, value engineering & product up gradation, Proto.
- Execution of APO-s (As per Order), NSI-s (Non-Standard Inquiry) and MTO-s (Made to Order), projects.

Godrej Precision Engineering, Mumbai. - Manufacturing Industry (11 months)

- Design drawings, BOM for Customer approval.
- Design of Jigs and Fixtures, Tooling required for inspection and testing, packing and transportation container drawings.
- Technical support to manufacturing during project execution.
- To work as an interface between customer and manufacturing.
- Brainstorming for NPD before actual production and finalizing with customer.

Godrej Locking Solutions & Systems - Manufacturing Industry (12 months)

- Feasibility study: - 2D drawing provided by product Designer.
- prepare report including tack time, manpower requirement, No of tools etc.
- Value stream mapping & Re-engineering.
- Knowledge of Jigs, Fixtures & Gauges
- Re-engineering: Reengineering of Locks, Welding fixtures for better quality.

Awards

- Received appreciation award for PLM Windchill ERP integration project.
